

IST 263 Project Milestone 1

Name: Lauren Lanahan

Description:

Submit a description below of the idea for your website project. This proposal should be 50-100 words. Include some information about what will be on the three pages in your website.

I aim to create a website about my favorite artist Banksy. Banksy has been one of my favorite artists since I was a kid, I saw his work in Bethlehem, NYC, San Fransisco (this winter break at an exhibition), and London and can confidently say I know a lot about him and am a super fan. On my first page I will create a page which displays who they are and what their message is to their audience and the art world. I would probably have this websites colors be black, white, and red as seeing that he is a street artist and one of his most notable works is the girl with the red balloon. On the second page I would like to create a page in which the user can access articles about Banksy, and possible exhibitions that are going on all over the country. Lastly, on the third page I would create categories containing art from his different series based on what city they were done in.
